**GUIDED MISSILE INTELLIGENCE COMMITTEE**

18 September 1958

**JCS DECLASSIFY/RELEASE INSTRUCTIONS ON FILE**

**MEMORANDUM FOR:** Members, Guided Missile Intelligence Committee

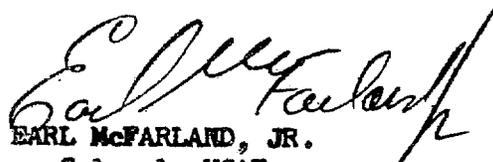

**SUBJECT :** Interchange of Information and Research Programs

1. DCID 3/4 under which we now operate provides under para. 1.b. (Policy) that:

"Full and free interchange among all agencies of information which has utility for intelligence relating to the national security is essential. This policy pertains especially to intelligence information, finished intelligence, and information on internal and external intelligence research programs."

To accomplish the interchange of information on internal and external intelligence research programs, it is necessary that the Secretariat be provided with the intelligence production efforts of each member agency. It is planned to correlate these programs into one informal document which will be sufficient to comply with the above policy.

2. It is suggested that you provide the Secretariat with information on the research being performed by your support groups or outside contractors in a format similar to that attached. The classification of the report will be at a CODEWORD level. We would like to accomplish the correlation prior to the first of the year and would appreciate your contribution by October 30, 1958.
